Dear Brant,

Many thanks to you and Larry Forsyth for your extensive and most professional inputs to our most-recent meeting of the WAOCC. As you recall we developed a requirement which I promised to levy on you.

The level of understanding of the role of DOE in nuclear incidents, including terrorism, is quite low, particularly among the watch offices. Your presentations were well structured to begin that education process, but it is obvious to all that you can't devote your entire life to making such presentations. Therefore, the Conference has asked me on their behalf to request that DOE prepare a video cassette training tape specifically designed to bring WAOCC watch officers up to speed. To allow maximum exposure we would request that the material be classified no higher than SECRET.

Again, thanks to you and Larry and we look forward to your continued participation.

Sincerely,

David Y. McManis
National Intelligence Officer for Warning
